

Florida

A Hunger and Poverty Snapshot

Between 2019-2021:

- Food insecurity in Florida averaged 9.90%.¹
- Florida's food insecurity rate was 5% lower than the national average of 10.4%.²
- The official poverty rate (which does not account for income from safety-net and tax-support programs such as SNAP, EITC, and others) in the state averaged 12.5%.³
- But using the Supplemental Poverty Measure (which does include safety-net and tax-support income), the poverty rate falls to 11.9%.⁴ In other words, these programs reduced the poverty rate in Florida by 5% and the number of people living in poverty decreased by 125,000.⁵
- SNAP, alone, lifted 525,000 people above the poverty line in Florida, including 239,000 children, per year between 2013 and 2017, on average. ⁶

Nutrition and Health

Diabetes and other diet-related health costs in Florida were estimated to be \$25 billion⁷ in 2017.

11.8% of the adult population in Florida has been diagnosed with diabetes in 2020.8 This includes:

- 23.9% of seniors.
- 12.9% of Black adults.
- 18.4% of adults with incomes of less than \$25,000.

Every year an estimated 128,509⁹ adults in Florida are diagnosed with diabetes.

Only 12.4% of adults in the state are meeting recommended fruit intake and 10.5% recommended vegetable intake. 10

Why Bread for the World is Focused on the Farm Bill

The Farm bill is scheduled to be reauthorized in 2023. No legislation has more impact than a farm bill on the US food system and the nation's ability to provide healthy food at affordable prices to everyone.

Bread for the World's farm bill priorities include a focus on nutrition, equity, and sustainability. We believe Florida has a lot to gain from a farm bill legislated with these priorities in mind.

Nutrition Equity Sustainability

Bread for the World supports strengthening SNAP in Florida.

Not only is SNAP the flagship food security and nutrition program, it is indispensable to better health outcomes and economic prosperity.

In 2021, 15% of Florida residents were helped by SNAP.¹¹

- Roughly 1.27 million workers in Florida live in households that participated in SNAP in 2021.¹²
- SNAP helps 1 in 7 workers in Florida put food on the table.¹³
- 60% of SNAP participants were in families with children, and 47% in families with members who are older adults or are disabled.¹⁴
- 86% of all SNAP-eligible people in Florida participate in the program.¹⁵

Bread for the World supports farm policies that promote a more equitable food system in Florida.

The Florida population is 71.6% white. According to the most recent Census of Agriculture, 91% of farmers and ranchers (producers) in Florida are white and occupy 96.5% of all farmland. 16

- Black producers represent 3% and occupy 1% of farmland.
- Hispanic producers represent 9% and occupy 5% of farmland.
- Asian producers represent 2% and occupy 1% of farmland.
- Indigenous producers represent <1% and occupy <1% of farmland.

Bread for the World is committed to eradicating food insecurity by building a more sustainable food system in Florida.

Reducing unnecessary food waste is one way to build a more sustainable food system.

In 2019, 5.6 million tons¹⁷ of surplus food in Florida went to waste instead of reaching those who needed it, an amount equal to:

- 9 billion meals unsold or uneaten.¹⁸
- \$32.4 billion in lost sales.¹⁹
- Annual CO2 emissions produced by 4,201,650 gasoline-powered cars.²⁰,²¹
