

Idaho

A Hunger and Poverty Snapshot

Between 2019-2021:

- Food insecurity in Idaho averaged 9.8%.¹
- Idaho's food insecurity rate was 6% lower than the national average of 10.4%.²
- The official poverty rate (which does not account for income from safety-net and tax-support programs such as SNAP, EITC, and others) in the state averaged 8.5%.³
- But using the Supplemental Poverty Measure (which does include safety-net and tax-support income), the poverty rate falls to 6.0%.⁴ In other words, these programs reduced the poverty rate in Idaho by 30% and the number of people living in poverty by 47,000.⁵
- SNAP, alone, lifted 38,000 people above the poverty line in Idaho, including 20,000 children, per year between 2013 and 2017, on average.⁶

Why Bread for the World is Focused on the Farm Bill

The Farm bill is scheduled to be reauthorized in 2023. No legislation has more impact than a farm bill on the US food system and the nation's ability to provide healthy food at affordable prices to everyone.

Bread for the World's farm bill priorities include a focus on nutrition, equity, and sustainability. We believe Idaho has a lot to gain from a farm bill legislated with these priorities in mind.

Nutrition	Equity	Sustainability
<p>Bread for the World supports strengthening SNAP in Idaho.</p> <p>Not only is SNAP the flagship food security and nutrition program, it is indispensable to better health outcomes and economic prosperity.</p> <p>In 2021, 9% of Idaho residents were helped by SNAP.¹¹</p> <ul style="list-style-type: none"> • Roughly 68,900 workers in Idaho live in households that participated in SNAP in 2021.¹² • SNAP helps 1 in 11 workers in Idaho put food on the table.¹³ • 74% of SNAP participants were in families with children, and 35% in families with members who are older adults or are disabled.¹⁴ • 74% of all SNAP-eligible people in Idaho participate in the program.¹⁵ 	<p>Bread for the World supports farm policies that promote a more equitable food system in Idaho.</p> <p>The Idaho population is 81% white. According to the most recent Census of Agriculture, 96% of farmers and ranchers (producers) in Idaho are white and occupy 93% of all farmland.¹⁶</p> <ul style="list-style-type: none"> • Black producers represent <1% and occupy <1% of farmland. • Hispanic producers represent 3% and occupy 3% of farmland. • Asian producers represent <1% and occupy <1% of farmland. • Indigenous producers represent <1% and occupy 3% of farmland. 	<p>Bread for the World is committed to eradicating food insecurity by building a more sustainable food system in Idaho.</p> <p>Reducing unnecessary food waste is one way to build a more sustainable food system.</p> <p>In 2019, 865,000 tons¹⁷ of surplus food in Idaho went to waste instead of reaching those who needed it, an amount equal to:</p> <ul style="list-style-type: none"> • 1.35 billion meals unsold or uneaten.¹⁸ • \$1.82 billion in lost sales.¹⁹ • Annual CO2 emissions produced by 349,060 gasoline-powered cars.^{20,21}
