

Oregon

A Hunger and Poverty Snapshot

Between 2019-2021:

- Food insecurity in Oregon averaged 10.3%.¹
- Oregon’s food insecurity rate was slightly lower (0.1 percentage point) than the national average of 10.4%.²
- The official poverty rate (which does not account for income from safety-net and tax-support programs such as SNAP, EITC, and others) in the state averaged 9.0%.³
- But using the Supplemental Poverty Measure (which does include safety-net and tax-support income), the poverty rate falls to 7.0%.⁴ In other words, these programs reduced the poverty rate in Oregon by 22% and the number of people living in poverty by 80,000.⁵
- SNAP, alone, lifted 117,000 people above the poverty line in Oregon, including 50,000 children, per year between 2013 and 2017, on average.⁶

Why Bread for the World is Focused on the Farm Bill

The Farm bill is scheduled to be reauthorized in 2023. No legislation has more impact than a farm bill on the US food system and the nation’s ability to provide healthy food at affordable prices to everyone.

Bread for the World’s farm bill priorities include a focus on nutrition, equity, and sustainability. We believe Oregon has a lot to gain from a farm bill legislated with these priorities in mind.

Nutrition	Equity	Sustainability
<p>Bread for the World supports strengthening SNAP in Oregon.</p> <p>Not only is SNAP the flagship food security and nutrition program, it is indispensable to better health outcomes and economic prosperity.</p> <p>In 2021, 17% of Oregon residents were helped by SNAP.¹¹</p> <ul style="list-style-type: none"> Roughly 286,800 workers in Oregon live in households that participated in SNAP in 2021.¹² SNAP helps 1 in 7 workers in Oregon put food on the table.¹³ 52% of SNAP participants were in families with children, and 41% in families with members who are older adults or are disabled.¹⁴ <p>100% of all SNAP-eligible people in Oregon participate in the program.¹⁵</p>	<p>Bread for the World supports farm policies that promote a more equitable food system in Oregon.</p> <p>The Oregon population is 74% white. According to the most recent Census of Agriculture, 94% of farmers and ranchers (producers) in Oregon are white and occupy 92% of all farmland.¹⁶</p> <ul style="list-style-type: none"> Black producers represent <1% and occupy <1% of farmland. Hispanic producers represent 3% and occupy 2% of farmland. Asian producers represent 1% and occupy <1% of farmland. Indigenous producers represent 1% and occupy 4% of farmland. 	<p>Bread for the World is committed to eradicating food insecurity by building a more sustainable food system in Oregon.</p> <p>Reducing unnecessary food waste is one way to build a more sustainable food system.</p> <p>In 2019, 1.17 million tons¹⁷ of surplus food in Oregon went to waste instead of reaching those who needed it, an amount equal to:</p> <ul style="list-style-type: none"> 1.86 billion meals unsold or uneaten.¹⁸ \$4.88 billion in lost sales.¹⁹ Annual CO2 emissions produced by 726,131 gasoline-powered cars.^{20, 21}
