

Vermont

A Hunger and Poverty Snapshot

Between 2019-2021:

- Food insecurity in Vermont averaged 7.9%.¹
- Vermont's food insecurity rate was 26% lower than the national average of 10.4%.²
- The official poverty rate (which does not account for income from safety-net and tax-support programs such as SNAP, EITC, and others) in the state averaged 8.2%.³
- But using the Supplemental Poverty Measure (which does include safety-net and tax-support income), the
 poverty rate falls to 6.9%.⁴ In other words, these programs reduced the poverty rate in Vermont by 16%
 and the number of people living in poverty by 8,000.⁵
- SNAP, alone, lifted 14,000 people above the poverty line in Vermont, including 5,000 children, per year between 2013 and 2017, on average.⁶

Why Bread for the World is Focused on the Farm Bill

The Farm bill is scheduled to be reauthorized in 2023. No legislation has more impact than a farm bill on the US food system and the nation's ability to provide healthy food at affordable prices to everyone.

Bread for the World's farm bill priorities include a focus on nutrition, equity, and sustainability. We believe Vermont has a lot to gain from a farm bill legislated with these priorities in mind.

Nutrition	Fourity	Sustainability
Nutrition	Equity	Sustainability
Bread for the World supports strengthening SNAP in Vermont. Not only is SNAP the flagship food security and nutrition program, it is indispensable to better health outcomes and economic prosperity.	Bread for the World supports farm policies that promote a more equitable food system in Vermont. The Vermont population is 92% white. According to the most recent Census of Agriculture, 98% of farmers and ranchers (producers) in Vermont are white and occupy 98%	Bread for the World is committed to eradicating food insecurity by building a more sustainable food system in Vermont. Reducing unnecessary food waste is one way to build a more sustainable food system.
In 2021, 11% of Vermont residents were helped by SNAP. ¹¹	of all farmland. ¹⁶	In 2019, 127,000 tons ¹⁷ of surplus food in Vermont went to waste
 Roughly 21,100 workers in Vermont live in households that participated in SNAP in 2021.¹² SNAP helps 1 in 15 workers in Vermont put food on the table.¹³ 54% of SNAP participants were in families with children, and 51% in families with members who are older adults or are disabled.¹⁴ 92% of all SNAP-eligible 	 Black producers represent <1% and occupy <1% of farmland. Hispanic producers represent 1% and occupy 1% of farmland. Asian producers represent <1% and occupy <1% of farmland. Indigenous producers represent <1% and occupy <1% of farmland. 	 instead of reaching those who needed it, an amount equal to: 204 million meals unsold or uneaten.¹⁸ \$679 million in lost sales.¹⁹ Annual CO2 emissions produced by 108,812 gasoline-powered cars.²⁰,²¹
